

**NEW!**

## **Infrared Lamp Assemblies**

**T**hese lamp assemblies are extremely reliable and provide a strong, uniform illumination at 950nm. Safe for all emulsions including the most sensitive high speed films.

### **THREE MODELS AVAILABLE:**

- **INFRA LED 21**  
Provides ideal illumination of approximately nine square feet from a twelve foot distance
- **INFRA LED 42**  
Illuminates approximately twenty square feet from a twenty foot distance
- **INFRA LED 126**  
Illuminates approximately forty square feet from a fifty foot distance

All three models operate on 120 VAC, 50 or 60 Hertz. Assemblies come complete with a mounting stand, 15 foot connecting cable and power supply.
